ADVANCED FEATURE

- RAPID Mode
- Data Security

SSD Optimization helps you configure your OS to work best with your SSD. You can manually toggle options on/off via the "Advanced" tab if you wish.

AHCI is disabled for one or more connected SSDs. System must boot in AHCI mode for best performance.

Maximum Performance | Maximum Capacity | Maximum Reliability | **Advanced**

Current status: **Maximum Performance**

System Service	Details
Hibernation Mode	Hibernation mode is enabled to maximize restart and standby performance.
Virtual Memory	The default Windows settings are used to maintain the maximum amount of available memory.
Indexing Service/ Search	Enabling this ensures fast search results.
Prefetch / Superfetch	Deactivates features that SSDs do not use.
Write Cache Buffer	Must be enabled for better SSD performance.
Write-Cache Buffer Flushing	Deactivates features that SSDs do not use.

So its sad that Samsung does not provide this capability for mac users, only windows users.. I tried bootcamp in the past and it

was a major PITA, so I guess I will have to live without optimizing the drive.. What are my options to update the Samsung SSD firmware without using a CD/DVD?. I have a late 2013 iMac running High Sierra, a 1TB Samsung 850 EVO, and just bought a USB 3.. Samsung Magician went through a major update in 2013 giving the software a new GUI and some new features including RAPID mode, which utilizes up to 1GB of system DRAM as a cache for frequently-accessed data ('hot' data) to increase performance.
